Attached are a series of documents (some of which are still draft versions) to assist with developing the record the transfer of the WPDES CAFO program from WDNR to DATCP:

  - NPDES State Program Guidance for review of State program applications\_Volume 2\_833B86102B\_1986.pdf.
- A copy of the EPA webpage for state authorization is also attached. This identifies the information to include in any request from Wisconsin to transfer a portion of the program from WDNR to DATCP.
  - EPA webpage NPDES State Program Information\_2018 06 25.pdf.
- A draft CAFO crosswalk, as well as a checklist designed to guide technical standards development.
  - WI DATCP CAFO Rule Review Crosswalk (2012\_2014 09 23 v)
  - WI DATCP Technical Standards review (2012 02\_CAFO Permit Manual)
- Finally, below is a link to EPA's website for information regarding the Memorandum of Agreement:
  - <https://www.epa.gov/compliance/memorandum-agreements-between-epa-and-states-authorized-implement-national-pollutant>. Scroll down to find link to final review documents including the checklist and model MOA.

We are currently searching for more documents (including a draft NPDES program authority crosswalk) to assist with the transfer and will work with our Headquarters team on this effort. If you should have any questions, please contact myself or my staff (Mark Compton).

Thank you,  
Candice

Duncan-

Good to talk to you today.

As we discussed, Mark or I will get you electronic versions of our draft review materials (checklists) and work to loop in our Office of Regional Counsel and Headquarter's review team to ensure that we all agree they are complete. Additionally, we will ensure to get you the name of our in-house attorney to establish good communication and coordination from the start of this process.

I look forward to talking more soon!

Candice
